

ASSESSMENT CONVERSION SCORE UPDATE FOR COMPLEX LEVEL 1

The table below provides a breakdown comparing how TrueLearn has previously converted the COMPLEX Level 1 Conversion Score, and how this score will be converted in the future.

Why did we make this change?

Previously, we used the NBOME Score Converter which compared your percentile with last year's performance. NBOME just closed their testing cycle and we have completed our statistical analyses of the data. We are now converting your score based on historical data and trends. This score will provide you with a more accurate estimation of what score you can expect to receive when you sit for your COMPLEX Level 1 exam.

How do I read the table?

- **Percentile** is the percentile your score falls into. This is calculated by taking your overall score and comparing it with others taking the assessment.
- **NBOME 3-digit Converted Score (Low and High)** is the score range you would have fallen in based on the previous score conversion method.
- **COMBANK 3-digit Converted Score (Low and High)** is the score range you fall into based on our new score conversion method.

PERCENTILE	NBOME 3 DIGIT CONVERTED SCORE RANGE		COMBANK 3-DIGIT CONVERTED SCORE RANGE	
	LOW	HIGH	LOW	HIGH
1	10	371	171	186
2	372	382	350	365
3	383	394	364	379
4	395	402	375	390
5	403	412	384	399
6	413	421	392	407
7	422	426	398	413
8	427	431	403	418
9	432	436	407	422
10	437	440	412	427
11	441	445	417	432
12	446	450	420	435
13	451	455	424	439
14	456	459	428	443
15	460	462	431	446
16	463	467	435	450
17	468	470	438	453
18	471	472	441	456
